Seat Kits

Perfection. That's what we strive for, in both our materials and our workmanship. And that is what you will get in our "ACP" seat kits. We use only the best materials, from the correct grain 34 ounce vinyl to threads and hog rings. We had GM's original supplier rerun the vinyls to ensure perfection in both grain and color. We built our own dies for the dielectric inserts to ensure originality. Then, when all the individual components meet our tough "ACP" standards, they are carefully assembled under the ever watchful eye of Lee Williams. The result is a perfectly fitted, concours quality Seat Cover Set.

Our strive for perfection doesn't stop with just the inserts. We want each piece to fit perfectly on the seat frames. Our patterns are all perfected by actual installation of the covers on seat frames. So there's no excess material to cause rolls or bunching over the top of the backrest, or around the many curves of the seat bottom. Since each piece is precisely tailored, the end result is a seat cover that fits smoothly and snugly over the entire seat.

Each "ACP" seat kit includes 2 front bucket seats, complete rear seat and enough hog rings for complete installation. 1964 Seat Kits are available in black, red, light blue, white, aqua and saddle. When ordering, please specify year, model and color.

1964 SEAT KIT \$359.00
(Please call for price and availability of individual seat, parts of seats and inserts).

NEW!

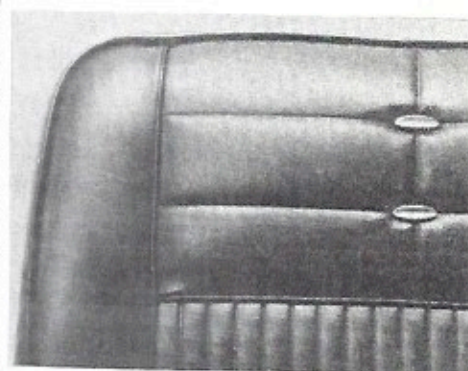

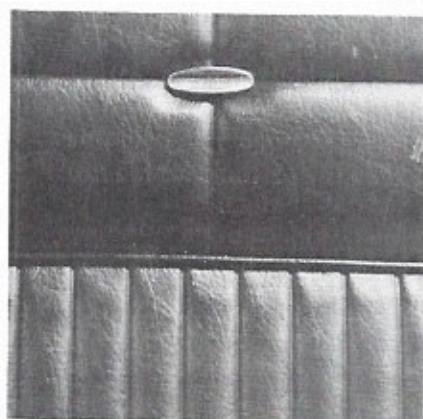

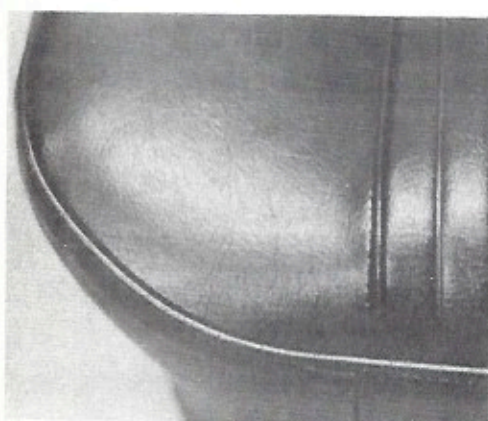

Seat Kits

1963

"ACP" is very proud to now offer you our top quality 1963 Corvair Seat Cover Kits. As with the 1964 Seat Kits, we perfected every aspect of the materials and workmanship before we let a single set go out of our shop. We use the same top quality materials and are just as fussy about the workmanship. We're sure you will be as thrilled as we are with our new 1963 Seat Cover Kits.

There are more than 20 individual pieces in a single 1963 bucket seat! And each piece must be precisely cut and assembled to obtain a finished product that will fit smoothly and snugly over the entire seat frame with no rolls or puckers. The inserts must be perfectly aligned both front and back. These procedures are all accomplished in our trim shop under the direction of Lee Williams, so that we produce only the best quality seat covers possible. (New buttons are not available, but your old ones can be reused).

1963 Seat Cover Kits are available in black, red, light blue, white, fawn, aqua and saddle. Please specify year, model and color when ordering. Each kit includes 2 front bucket seats, complete rear seat and enough hog rings for complete installation.

1963 SEAT KIT \$359.00
(Please call for price and availability on individual seats, parts of seats and inserts).
